
SAINT LOUIS UNIVERSITY SCHOOL OF MEDICINE
Gastrointestinal and Hepatic Pathology Fellowship

Description: The gastrointestinal and hepatic pathology fellowship at Saint Louis University is a one-year ACGME-accredited program. The program offers the fellow exposure to a broad spectrum of biopsy and surgical specimens relating to adult and pediatric gastrointestinal and hepatobiliary disease. Saint Louis University Hospital and Cardinal Glennon Children's Medical Center provide the clinical material for the program. The material includes the luminal GI tract, liver, pancreas, and biliary tract ranging from small biopsies to radical resection and transplantation. Outside consultation material and intraoperative consultation are also included. Fellows participate in and present at multidisciplinary clinical conference. Fellows are encouraged to participate in clinical research.

Requirements: Candidates must have completed AP or AP/CP residency in an accredited program. The candidate must be able to apply successfully for Missouri State medical licensure.

Types and Numbers of Appointments: One fellow per year.

Stipends: Stipends are commensurate with level of postgraduate training in pathology.

Applications: Kiyoko Oshima, MD, DSc, Program Director, GI & Hepatic Pathology Fellowship, Saint Louis University School of Medicine, Department of Pathology, 1402 South Grand Blvd., St. Louis, MO 63104
