
SAINT LOUIS UNIVERSITY SCHOOL OF MEDICINE

Forensic Pathology Fellowship

Description: The Saint Louis University Department of Pathology offers a one-year ACGME-accredited training program in forensic pathology directed towards board certification. The training is based at the City of St. Louis Medical Examiner's Office. The approximately 2,600 deaths annually reported to the office include homicides, suicides, and accidents. The resident functions as a forensic pathologist under the supervision of a senior pathologist and conducts autopsies, attends scenes, interacts with families and treating physicians, and acts as a consultant to police and attorneys. Case material is supplemented by select cases from surrounding jurisdictions. Training includes dedicated rotations in toxicology and police laboratories; monthly clinicopathology conferences with trauma surgery service, monthly forensic neuropathology conferences; attendance at our Medicolegal Death Investigators' Course, in addition to a national meeting.

Requirements: Candidates must have completed an accredited pathology residency in AP or AP/CP. The candidate must be able to apply successfully for Missouri State medical licensure.

Types and Numbers of Appointments: One fellow is trained per year as an assistant medical examiner/forensic pathologist.

Stipends: Commensurate with level of postgraduate training in pathology.

Staff: **Michael Graham** MD, Professor, St. Louis City Chief Medical Examiner; **Jane W. Turner** MD, PhD, Associate Professor, St. Louis City Assistant Medical Examiner, and Director, Forensic Pathology Fellowship; **Phillip Burch** MD, Associate Professor, St. Louis City Deputy Medical Examiner; **Mary Case** MD, Professor, St. Louis County Chief Medical Examiner.

Applications: Address inquiries to: Jane W. Turner, MD, PhD, Program Director, Forensic Pathology Fellowship, Saint Louis University School of Medicine, Pathology Department, 1402 South Grand, St. Louis, MO 63104
