**RE: ICPI Travel Award**

Dear Members of the ICPI Board,

Thank you for your generous support that allowed me to attend the recent Resident Forum and CAP'07 meeting in October 2007.

The Resident Forum gave me the opportunity to network and make contacts with both fellow Canadian and American Pathology residents, which I hope to keep throughout my residency and into practice. The Resident Forum also allowed me to learn and understand current US training issues as well as to consider new possibilities within Canadian training programs.

At the CAP'07 meeting I was able to attend lectures given by renowned pathologists in various fields, which has enhanced my own residency training and knowledge base. Without the ICPI Travel Award I would not have been able to learn new pathological concepts/approaches ranging from soft tissue tumours to digital pathology applications to forensic pathology.

I truly feel the RF and CAP'07 meeting was beneficial to my ongoing education and training in pathology as well as opening new networking possibilities. Once again, thank you for your generous support that allowed me to attend the RF and CAP'07 meeting.

Sincerely,

Tsu-Yee Joseph Lee, MD, PhD, Hon BSc  
Anatomical Pathology  
Dalhousie University
