Mark E Sobel,
Intersociety Council for Pathology Information
9650 Rockville Pike
Bethesda, MD

Thank you for the Intersociety Council for Pathology Information Trainee Travel Award, which has provided me the opportunity to attend the EB 2009 Meeting at New Orleans. At the meeting I presented a poster "Intraventricular Meningioma and Post Surgical Cystic Encephalomalacia : a Case report" . This is my second participation in the ASIP annual meeting at EB; the previous one was in EB 2008 at San Diego. I am pursuing neurology residency and have developed immense interest in Neuropathology and Neuro-oncology. It has been a privilege to meet people with expertise in these fields and keep up my growing interest. I also attended the stimulating lectures including neuropathology of Alzheimer's disease, which has made me confident in my current field of interest. My sincere thanks to ICPI for making this successful participation more affordable.
