

I would like to thank the Intersociety Council for Pathology Information for granting the generous travel award and providing me the opportunity to attend the 2010 USCAP meeting in Washington D.C. I must say that I had a wonderful time during the meeting. During the meeting I was able to attend many lectures which were given by world-renowned pathologists on a variety of fascinating topics. These outstanding educational lectures allowed one to keep up with the latest developments in diagnostic pathology as well as research. The vendor show gave me exposure to many new technologies and I got hands on exposure to new pathology-related equipments. As a 3rd year resident who is in the process of transitioning to a senior and fellow, I strongly felt that the 2010 USCAP meeting was able to provide me the opportunity to interact with peers at various stages in their pathology practicing careers. This will be extremely helpful as I begin my own pathology practice in the near future.

Thanks ICPI again for Granting me the opportunity to attend the 2010 USCAP meeting!
