

Dear Ms. Stivers

I would like to thank you and ICPI for providing me the opportunity to attend the CAP '11. I am truly honored to have received this travel award.

The resident forum provided me an opportunity to interact with other residents and faculty. Some of the most important issues facing residents were discussed there. Moreover there were excellent core lectures to learn from the most respected and known experts in the field of Pathology.

I presented my poster "Sebaceous differentiation in Epithelial-Myoepithelial carcinoma" and also attended the vendor show to see the different advancements in Pathology.

All these sessions provided an excellent platform on which to build new friendships, knowledge and understanding of pathology. I sincerely thank the ICPI for providing the travel award. I recommend my fellow residents to apply for this travel award.

Thanks,

Muhammad Adnan Malik

Resident,

Pathology, UTHSC, Memphis
