Intersociety Council for Pathology Information (ICPI)  
9650 Rockville Pike  
Bethesda, MD 20814

Dear members of the ICPI,

I recently returned from the 2011 ASCP annual meeting held in Las Vegas, Nevada, where I presented a poster titled, "Increased IgG4 Positive Plasma Cells in Collagenous Sprue." The meeting was an exceptional and well-rounded experience. From board preparation to learning about the latest in next generation sequencing and pathology's role in personalized medicine, the offered educational opportunities were comprehensive and rewarding.

Due to the support provided by the ICPI trainee travel award, I was able to extend my stay beyond the time allotted for my presentation to attend a variety of additional lectures and network with fellow residents and pathologists. Thank you for your generous financial support – my experience was significantly enriched because of it. I look forward to attending future ASCP conferences.

Sincerely,

Kenny Schoolmeester, MD
