Intersociety Council for Pathology Information
9650 Rockville Pike
Bethesda, MD 20814

Dear ICPI Board members,

I would like to take this opportunity to thank ICPI for awarding me the Travel Grant, which helped me attend the CAP 2012 'The pathologist' meeting held at San Diego, CA from September 9 – 12, 2012.

I am currently a third year Pathology Resident (AP/CP), and am looking for a fellowship position. So, during this meeting I attended the fellowship fair and got an opportunity to find out the different positions available all over the country and there were also representatives of the CAP resident forum who helped me answer the number of queries I had for the application process.

During this meet, I attended numerous courses presented by experts in their respective fields, which helped me in understanding the diagnostically challenging problems better. Being interested in genitourinary pathology, the course on application of immunohistochemistry in diagnosis of genitourinary pathology was particularly helpful in improving my knowledge in the field. The number of posters presented also gave me an updated knowledge on researches in many fields of pathology. During my two poster presentations, I also received feedbacks from many faculties and residents from all over the country.

Finally, the meeting provided a great networking opportunity, allowing me to meet and interact with many residents, fellows and practicing pathologists with different experiences and backgrounds.

In summary, this CAP meeting was a great educational and professional experience. I would like to thank you once again for your financial support for making my participation in such an event possible.

Sincerely,

Judy Sarungbam, M.D.
PGY III, Pathology Resident
Westchester Medical Center/ New York Medical College
