

September 12, 2014

Dear ICPI Board members,

My name is Esther Yoon and I'm a PGY-2 at Westchester Medical Center/NY Medical College. I would like to use this opportunity to thank you for awarding me the ICPI Travel Grant. My abstract was accepted in CAP'14 and with their financial help, I was able to attend CAP'14 in Chicago for the first time and it was a very valuable experience.

As a new second year resident in Pathology, attending CAP provided numerous great opportunities. I had chances to meet various fellowship program directors, fellows and senior residents from all over the country. Networking and discussing with other colleagues helped me understand the current issues in pathology. It was also insightful to hear different perspectives on different topics in Pathology. Meeting with senior pathologists and co-residents was definitely encouraging for me and influenced my career path. In addition to interacting with many CAP'14 attendees, I took several educational courses provided by CAP. Hearing those lectures and learning from the experts all over the country was priceless experience and definitely one of the highlights of my trip. The courses were so informative and the lecturers were excellent. In summary, this CAP meeting was a great educational and professional experience.

I enjoyed CAP'14 very much and I am so grateful to ICPI for their generous support. THANK YOU!

Sincerely,

Esther Yoon, MD

Pathology Resident

Westchester Medical Center

Valhalla, New York
