Dear ICPI Board members,

Thank you so much for providing me support and assistance in attending the College of American Pathologists meeting held in Gaylord National, MD (Washington, DC, Area) on October 08-11, 2017. I was able to attend the CAP'17 meeting because of the ICPI travel award.

I presented three abstracts entitled, "Impact of lack of Clinical Information in Surgical Pathology on Patient Care - A Single Institution Study", "Desmoplastic Infantile Ganglioglioma with P53 Immunopositivity: Report of a rare case", and "Primary Cardiac Angiosarcoma - Report of a very rare case". Attending CAP'17 provided me an exciting and valuable opportunity to display and discuss my clinical and research endeavors. It also gave me exposure to many different areas of pathology through attending courses offered during the meeting. Getting feedback and input from renowned experts strengthened my educational foundation and stimulated new research ideas. Furthermore, it gave me a chance to interact and network with leaders in the subspecialties of my interest. Thank you again for all the support.

Best,

Faisal Saeed, M.D., PGY-4
