Bethesda, MD 20814

Dear ICPI Board Members,

Thank you so much for providing assistance in attending the annual United States and Canadian Academy of Pathology (USCAP) meeting in San Antonio, TX this past week. At this meeting, I was able to present two of my research projects entitled, "Incidental Gynecologic Tract Neoplasms in Women Undergoing Anterior Pelvic Exenteration for Urothelial Carcinomas," and "Prognostic Implications of the Size, Number, and Location of Lymph Node Metastases in High-Grade Endometrial Carcinomas." These poster presentation sessions provided me with the opportunity to network with other pathologists and gather more ideas to further my current research. I even recruited a pathologist from the United Kingdom to collaborate on one of my projects. I gained great insight on the new and developing ideas in this field while attending many of the proffered papers sessions. Thank you again for this great opportunity.

Best,

Lily Tran, MD
PGY-3 Pathology Resident
