

"PISA 2016 was an excellent meeting, it exceeded my expectations by far. This was my first year attending this meeting and it was an amazing opportunity to show my research while learning a lot about what is happening in our field and between ASIP. The thing I loved the most was the SIG breakout poster sessions, it is a great concept and gives trainees an opportunity to present their posters to a target audience and engage in a moderated and enriching question session. I am very excited about next year's EB and PISA meetings. I would like to thank ICPI for their support with my travel award"

Thanks
